DETAILED ACTION

Claims 27-31 are pending. The amendment filed 3/13/02, Paper No. 8, cancelled claims 1-26 and amended claims 27-31.

Applicant's arguments with respect to claims 27-31 have been considered but are moot in view of the new ground(s) of rejection. However, to the extent that the arguments may be relevant to the instant rejection, the Examiner will address them.

Applicant is advised that should claim 30 be found allowable, claim 31 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 27-31 rejected under 35 U.S.C. 102(b) as being anticipated by Rouquet et al. (EP 0908175).

Rouquet et al. disclose stable topical compositions containing solid elastomeric organopolysiloxane and spherical particles. Exemplified is a water-in-oil make-up foundation comprising, dimethicone copolyol (silicone oil), cyclomethicone (silicone oil), hydrogenated isoparaffin (oil-phase containing skin care active), and KSG-16 (crosslinked silicone elastomer).

Art Unit: 1617

Thus, Rouquet et al. and the instant invention both teach a method of applying to the skin a composition comprising a water-in-oil emulsion comprising a silicone oil, a crosslinked silicone elastomer, and a skin care active, all of which are in the oil-phase. See pages 10-11.

The claims are directed to a method of applying a composition comprising oil-soluble skin care active, silicone oil, and silicone elastomer to the skin. Any properties exhibited by or benefits provided the composition are inherent and are not given patentable weight over the prior art. A chemical composition and its properties are inseparable. Therefore, if the prior art teaches the identical chemical structure, the properties Applicant discloses and/or claims are necessarily present. In re Spada, 911 F.2d 705, 709, 15 USPQ 1655, 1658 (Fed. Cir. 1990). See MPEP 2112.01. The burden is shifted to Applicant to show that the prior art product does not inherently possess the same properties as instantly claimed product. The prior art teaches application to the skin of compositions containing the same components as instantly claimed, which would inherently enhance the delivery of the oil soluble skin care active and regulate the condition of the skin, as instantly claimed. Applicant has not provided any evidence of record to show that the prior art compositions do not exhibit the same properties as instantly claimed.

Response to Arguments

Applicant argues, "there is no teaching that such compositions also provide a significant skin care active delivery benefit". This argument is not persuasive. As stated above, this is an inherent property of the method of applying the composition.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
